

I've got a new Love - Tony Z

I've got to leave this city,
Before I loose my mind
I've got to leave this city,
And leave my troubles behind

Gotta new love and I can't be waist in' time
Gotta new love and it's time to taste the wine
Don't even try to find me
Please don't waist your time

I've been a lot of places, all around the world
Played a lot of games, every kind of girl

Gotta new love, she set me free
Gotta new love, don't wait for me
Don't even try to find me
Please don't waist your time

SOLO's

You know you treat me dirty, You know you treat me cruel
You know you treat me bad, and broken all the rules
Gotta new love and can't be waist in' time
Gotta new love and it's time to taste the wine

Don't even try to find me
Please don't waist your time (after solo's, tag with last 2)
