### [Verse 1]

Just remember me, baby  
When I'm in six feet of cold, cold ground  
Please remember me, baby  
When I'm in six feet of cold, cold ground  
I'm just another good guy who loved you  
Just another good girl gone down

### [Verse 2]

Don't cry, baby  
Please don't cry after I'm gone  
Don't cry, baby  
Please don't cry after I'm gone  
I'm just another good guy who loved you  
And I didn't do anything wrong

### [Verse 3]

Please remember me, baby  
And the love we once knew  
Please remember me, baby  
And the love we once knew  
Well, I know we had some bad times  
But there was some good ones, too

### [Verse 4]

If you still say you love me, baby  
And really mean it's true  
If you still say you love me, baby  
And really mean it's true  
Everything I do in life  
I'll do it just for you
